

July 10, 2017

Dear PTO President:

As a former WCS administrator, I realize how difficult it is to find programs that entertain your students and yet meet curriculum standards. Roger Day has just that- programs which meet curriculum standards and keeps your students engaged and entertained.

Roger is a singer/songwriter extraordinaire! His programs consist of music and song lyrics which are fast paced, movement oriented, and yes, meet curriculum standards. As an administrator watching him perform and how he keeps the students with him is amazing. He is energetic while performing and his energy transfers to the students. The best part is the students remember his songs and carry them into the classroom as they learn curriculum content.

Programs can be tailored for a specific grade level or cluster. Please see the attached literature to learn about his shows and the curriculum content they cover or go to his website, RogerDay.com. He has worked with the Tennessee Arts Council for several years which means your school can apply for a grant via the Tennessee Arts Council to help fund his visit to your school. Previously, he booked an artist in residence 2-day visit with several WCS elementary schools to work with students on song writing skills.

I hope you will keep Roger Day in mind when planning programs this year. Please pass this information on to your board members. In his literature, you will find the Tennessee Curriculum Standards for each show as well as a link to the Tennessee Arts Council, and the various ways you can utilize his programs in your school.

I hope your 2017-18 school year gets off to a wonderful start!

Kathy S. Hall
