

## **INVINCIBLE!**

*Words & Music © Roger Day & Josh Castle*

*KAPOW....KABAM...KABOOM...ZAP*

When the bad guy's got you cornered  
And it looks like there's no escape  
There's no need to wait for super heros anymore  
I can save the day through the turning of the page

**I'M INVINCIBLE - IT'S UNDENIABLE  
I'VE GOT A POWER THAT'S UNBEATABLE  
MY IMAGINATION CAN KNOCK DOWNS WALLS**

**NOTHING'S IMPOSSIBLE - I'M UNSTOPPABLE  
EVERY PUZZLE IS SOLVABLE  
I CAN DO ANYTHING AT ALL....THROUGH THE PAGES OF A BOOK!**

*KAPOW...ZOINK!*

I can blast off in a jetpack  
I can lift up a monstrous monster truck  
Or be a secret agent, picked by the president  
I can crack the code, I can vanquish any foe

## **CHORUS**

*I start at the beginning  
Then I read to the middle  
I don't stop till I reach the end*

So if you're hanging off the cliff face  
And the evil genius is closing in  
Take a tip from me and you will be flying free  
'Cause it's bird – NO!  
It's a plane – NO!  
It's the power of your brain

## **CHORUS**

**I CAN DO ANYTHING!  
I CAN DO ANYTHING!  
I CAN DO ANYTHING AT ALL....THROUGH THE PAGES OF A BOOK!**

## **NO ORDINARY SUPER HERO**

*Words & Music © Roger Day & Josh Castle*

**I'm no ordinary super hero  
I can't fly but I'll be just fine  
The whole world is gonna see me shine  
I'm no ordinary super hero  
I don't need a letter on my chest - To be the best**

When I think about super heros  
I start feeling like maybe I'm a zero  
I try to run but I just slow down  
I try to jump but I never leave the ground

Earth bound - is that it?  
Wait a minute I'm never gonna quit  
I might be small but looks deceive  
Pretty soon you will believe...yeah!!

### **CHORUS**

You might wonder where I get my moxie  
Big ideas that sprout like broccoli  
It's a cinch - here's good news  
You've got that moxie too!

Every second every minute every hour  
I'm using my super power  
Imagination that's the key  
Guess what - you can be like me!...yeah...yeah!

### **CHORUS**

I don't need a mask – don't need a cape  
Or a getaway car for my escape  
Don't need a phone built in my shoe  
Or to climb a wall with invisible glue

Don't need a cave built underground  
No sidekick to slow me down  
Don't need a clone or a mini me  
Or eyes that shine like laser beams

Forget about that super suit  
I never liked those clunky boots  
All that stuff gets in the way  
When it's time to save the day!! yeah...yeah....yeah, yeah, yeah, yeah!

### **CHORUS**

## **GET A ROBOT FIRST**

*Words & Music © Roger Day*

Robots do the dirty work that humans won't  
Astronauts need oxygen but robots don't  
That's a clear advantage in outer space  
When you find yourself surrounded by an alien race  
**If you've got a mind to save the universe  
I highly recommend you get a robot first**

If you're on a space ship and you're feeling trapped  
A robot can project you a 3 D map  
And show you an escape plan that will never fail  
So you can slip out undetected from an alien jail  
**If you've got a mind to save the universe  
I highly recommend you get a robot first**

**ROBOTS ARE COOL  
ROBOTS ARE SMART  
AND IF THEY GET ON YOUR NERVES  
YOU CAN PRESS RESTART**

*It's time to do the robot dance  
Everybody do the robot dance  
Like your Mama and your Daddy do the robot dance  
Like your great granddaddy do the robot dance  
Rock it, rock it, planet rock it.*

If you're confused in the middle of negotiations  
And you need the right word in a tricky situation  
They know every single language in the galaxy  
From COBOL, BASIC or JAVANESE  
**If you've got a mind to save the universe  
I highly recommend you get a robot first**

## **CHORUS**

Robots do the dirty work that humans won't  
Astronauts need oxygen but robots don't...

## **ME AND MY JETPACK**

*Words & Music © Roger Day*

Me and my jetpack – we're ready to go  
Me and my jetpack – the stars of the show  
Above the clouds above the ground  
Mission control – let's count it down

**10, 9, 8, 7, 6, 5, 4, 3, 2, 1**

**BLAST OFF INTO THE SKY  
ME AND MY JETPACK  
BLAST OFF INTO THE SKY  
ME AND MY JETPACK**

Me and my jetpack – I made it with my two hands  
One Saturday morning with a little duct tape and rubber bands  
A cardboard box of my own design  
Mission control – it's almost time

**BLAST OFF INTO THE SKY  
ME AND MY JETPACK  
BLAST OFF INTO THE SKY  
ME AND MY JETPACK**

We can be the heroes – all day long

**BLAST OFF INTO THE SKY  
ME AND MY JETPACK  
BLAST OFF INTO THE SKY  
ME AND MY JETPACK**

Me and my jetpack – we're ready to go...

## **I'LL BE YOUR SUPER HERO**

*By © Roger Day & Thomas Day*

Hey Mom where's my cape  
(The) Bad guy just escaped  
I had it here yesterday  
I need it to save the day

## **WHEN THE WORLD NEEDS A SUPERHERO I'LL BE YOUR SUPERHERO**

Hey Mom where's my mask  
The one that makes me really fast  
Is it with my super shoes  
I need them both for what I do

### **CHORUS**

*Out of my swing and into the sky  
Hey Mom watch me fly  
Faster even than the speed of sound  
The laws of gravity  
Won't hold me back or slow me down*

Hey Mom whaddya mean  
I thought my room was pretty clean  
Put away my toys and make my bed  
Shouldn't I save the world instead

### **CHORUS**

La, la, la  
I'll be your superhero  
La, la, la  
I'll be your superhero  
La, la, la  
I'll be your superhero

## **LITTLE ANTS**

*Words & Music © Roger Day*

The most unexpected thing about being a famous super hero  
Is how the paparazzi are always bugging you  
“How do you find the time to save the world  
And win the heart of the brainy girl”  
I say, “Hey...that’s just do what I do”

See, I put one hand up then another  
Next thing you know I’m above my brother  
And my baby sister too  
I can fly around for an hour  
Then it dawns on me I’ve got a super power!  
And whole new point of view

**EVERYBODY DOWN BELOW  
LOOK LIKE LITTLE ANTS  
CRAWLING ON THE GROUND**

**EVERYBODY DOWN BELOW  
LOOK LIKE LITTLE ANTS  
CRAWLING ON THE GROUND**

It used to be that every molehill looked like a mountain top  
Every problem coming down the track was a train I could not stop  
Now that I’m on the super hero - I’m the one who gets things done  
Celebrities want my autograph because I’m so much fun!

### **CHORUS**

It’s not like I’m unapproachable I’ve still got the common touch  
But sometimes the A list crowd can be a bit too much  
I mean really Harry and Meghan...Kate and William too?  
A super hero’s green room is sometimes such a zoo!

### **CHORUS**

Tiny little microscopic itty bitty ants  
Tiny little microscopic itty bitty ants  
Not a single one of them a millimeter long  
All marching around like that Dave Matthews song!

### **CHORUS**

The most unexpected thing about being a famous super hero  
Is how the paparazzi are always bugging you...

## **SOLVE THE PROBLEM, SAVE THE DAY**

*Words & Music © Roger Day*

When you're running through the woods  
In a super hero cape  
Chasing down your nemesis  
The no-good evil genius foe

And despite your x-ray vision  
And your really cool shoes  
Suddenly you realize that  
You don't know which way to go

*That's when you slow down...  
Take a deep breath...  
Don't lose heart  
You've gotta start at the start*

## **SOLVE THE PROBLEM, SAVE THE DAY SOLVE THE PROBLEM, SAVE THE DAY**

You look this way and that way and upside down  
Searching for a clue  
But everywhere you look  
Is someplace you've looked before

And then you feel a little panic  
Cause you're afraid that he's escaped again  
And you're thinking to yourself  
He's gotta have a secret door

*That's when you slow down...  
Take a deep breath...  
Don't lose heart  
You've gotta start at the start*

## **CHORUS**

What happens next?  
Well, that's all up to you  
Life is full of problems  
But it's full of answers too

You're the super hero  
You've got what it takes  
To put those clues together  
And put the bad guy in his place

## **CHORUS**

Who you gonna call?  
What you gonna say?  
Where you gonna look first?  
When you gonna look there?  
Why you gonna look there?

How will you know if you're right?  
How will you know if you're wrong?  
What if you're right?  
What if you're wrong?

**Who, what, where, when, why, why, why, why, why....**  
**Who, what, where, when, why, why, why, why, why....**

## **BIG PICTURE**

*Words & Music @ Roger Day & Susan Verde*

*(Published by Clashing Plaids, ASCAP - Used by Permission)*

Call me citizen scientist  
I'm ready for adventure  
My questions lead me everywhere  
I unravel mysteries

**I see the BIG PICTURE  
And I break it down  
I can't wait to investigate**

**I see the BIG PICTURE  
When I look around  
I can't wait to investigate**

I might discover something unknown  
Maybe an ecosystem  
I use my magnifying glass  
And see a whole new universe in my backyard

## **CHORUS**

*I observe it - sketch it - write it all down  
Collect it - measure it - write it all down  
Solve for  $x$  - and I write it all down*

Treasures hidden in the rocks  
Shells that tell a story  
Twinkling stars up in the sky

It's all out there waiting  
For a scientist like me...

## **CHORUS**

**I can't wait to investigate**

## **THE EVERYDAY HERO SONG**

*Words & Music © Roger Day*

They can be disguised - they look so ordinary  
But don't you be surprised -  
Their powers are very, very, strong and cool  
They help us in our neighborhoods, our parks and schools  
Today's the day...we celebrate!

**Heros! Our everyday heroes**

**Heros! Our everyday heroes**

There's Officer Abigail - with a high five and a smile  
Ms Thompson driving the bus  
Always patient even if you're running late  
She'll make sure that you get there safe

### **CHORUS**

And if you fall down in the middle of the play ground  
And you try to hide the tears in your eyes  
Nurse Amelia opens up her first aid kit  
And saves the day with a neon band aid

### **CHORUS**

All the teachers who make us smart  
All the coaches who keep us strong  
All the parents who volunteer  
With a million things going on  
And when it's time to eat  
The cooks are gonna make us a tasty treat  
Full of vitamins and nutrients that'll help our bodies grow

### **CHORUS X 2**

**LOVE IS MY SUPER POWER**  
*Words & Music © Roger Day*

I can't jump over buildings  
I can't see through a wall  
I can't lift up my school bus  
Or catch a star when it falls

But I've got something better  
Beating in my heart  
It might not save the whole world  
But it's a pretty good place to start

HEY...OH...Love is my superpower  
HEY...OH...Love is my superpower

I can't make a web with a flick of my wrist  
Or fly above people down below  
I can't turn myself invisible  
Or ever be the star of my own show

But I've something stronger  
And you've got it too  
Together we can make the whole world shine like new

Let it shine....Let it shine....Let it shine!

**CHORUS**

Love is my superpower...
